THE INTERNATIONAL EXIBITION OF LANDSCAPING, TECHNOLOGY, AND GARDENING
SALON INTERNATIONAL DE L'AMÉNAGEMENT PAYSAGER, DE LA TECHNOLOGIE ET DU BRICO-JARDIN

The International exhibition of landscaping, technology, and Gardening is the unmissable event in Africa for horticultural industry professionals. The Garden Expo annually gather companies that operate in the field of landscaping and urban planning to share their latest technologies and advancements.

Garden Expo: chase the opportunity!

Communicate your new products & services

Garden Expo is the perfect opportunity to showcase your recently developed products and services in the horticultural industry to your current customers and potential prospects

Generate new sources of profit & conquer new markets

The Garden Expo offers the opportunity to interact with a new target. The event provides an ideal environment for commercial prospecting due to the influx of professional visitors.

Conducting market research & learning about the landscape & urban planning market

During the expo, all the newest gardening technology is exposed which provides an overview of current trends. It's a real-time to do market research!

Ensure the recognition & visibility of your company

Participating in the Garden Expo is also an opportunity to position yourself in the African landscaping and urban planning market. The expo helps you to improve your reputation and increase your brand recognition.

Establish professional partnerships

The international exhibition of landscaping, technology and gardening brings together all the professionals of the sector in Africa, which offers the opportunity to find potential partners who can benefit from collaborating with your company.
